

TSU Level Tools

- tsu-level-tools verify file.lvl
 - Checks if all values, amounts, bytes and complexity limits seem valid
 - Also works on json files
- tsu-level-tools complexity file.lvl
 - Outputs the complexity as a JSON object
- tsu-level-tools convert file.lvl
 - Outputs a lvl file as a json file and the other way around
 - Does not overwrite existing files
 - -pretty
 - Indents with 2 spaces when exporting to JSON
 - -external-images
 - Writes or reads the preview images to separate JPG files instead of base64 strings inside the json
